Index — which file, which page

Trigonometry *(trig.pdf)*

degrees ↔ radians 1
root-*n* pattern 1
key identities 1
sum & difference 1
double angle 1
power reduction / half angle 1
law of sines & cosines 2
polar coordinates 2
vectors 2

Calculus I — Limits & Derivatives *(calc1.pdf)*

domain blockers 1
slope 1
avg / instantaneous rate of change 1
limits 1
limits from leading exponents 1
asymptotes — the finding procedure 1
fundamental limits 1
limit laws 1
algebraic limit techniques — killing a $0/0$ by hand 1
squeeze theorem 1
L'Hôpital's rule 1
indeterminate forms — rearrange, then L'Hôpital 2
continuity 2
intermediate value theorem (IVT) 2
discontinuities 3
derivatives 1
tangent line 3
implicit differentiation 3
logarithmic differentiation 4
derivative of an inverse function 4
higher-order derivatives 4
differentiability vs continuity 4
critical points and extrema 4
concavity and inflection 4
curve sketching — the synthesis 5
mean value theorem (MVT) 5
extreme value theorem (EVT) 5
linear approximation & differentials 5
related rates 5
optimization (one variable) 5
rectilinear motion (1-D) 6
Newton's method 2
Calc I common pitfalls 6

Calculus II — Integration *(calc2.pdf)*

antiderivatives (indefinite integrals) 1
riemann sums 1
sigma to integral 1
definite integral 1
fundamental theorem of calculus 2
Absolute value integrals 2
u-substitution 2
integration by parts (IBP) 3
trig integrals 4
partial fractions 3
trig substitution 3
net change theorem 5
average value 5
area between curves 5
geometry as integrals 6
volumes of revolution 6
arc length 7
surface area of revolution 7
work (springs & pumping) 7
hydrostatic force 8
improper integrals 9
integration pitfalls 10

Vector Calculus *(vector-calc.pdf)*

Calc 2 → Vector Calc: carry-over cheat sheet 1
vector basics (2D & 3D) 1
3D vectors 1
dot product 1
cross product (3D only) 2
lines & planes in space 4
quadric surfaces 6
vector-valued functions (space curves) 7
calculus of vector-valued functions 8
arc length 10
motion in space 11
functions of several variables 12
multivariable limits & continuity 13
partial derivatives 14
tangent planes & linear approximation 15
multivariable chain rule 16
directional derivatives & the gradient 18
max/min — critical points & the second derivative test 20
double integrals — rectangular regions 23
double integrals — general regions 24
double integrals — polar coordinates 25
triple integrals — rectangular coordinates 27
coordinate conversions — the full table 29
triple integrals — cylindrical coordinates 30
triple integrals — spherical coordinates 30
mass, center of mass & moments 32
change of variables — where every Jacobian comes from 33

Discrete I — Logic, Sets & Proofs *(discrete.pdf)*

algebra refreshers 1
propositional logic 2
predicate logic & quantifiers 3
sets 1
functions 4
relations 5
number theory 5
proof strategies 6
mathematical induction 7

Discrete II — Counting, Recurrences & Graphs *(discrete.pdf)*

sequences & recurrences 9
combinatorics 9
asymptotic notation 10
graph theory basics 11

Start Here *(pre-algebra.pdf)*

how to read this 1
why algebra works 1
the rules everything assumes 1
when you are stuck 1

Pre-Algebra *(pre-algebra.pdf)*

integers and the number line 2
fractions 1
decimals and percents 3
ratios and proportions 3
exponents and square roots 3
basic geometry 3

Algebra I *(algebra.pdf)*

expressions 1
solving linear equations 1
turning words into algebra 1
inequalities 1
absolute value 2
lines and slope 2
systems of equations 3
exponent rules 3
polynomials 3
factoring 4
quadratic equations 4

Algebra II *(algebra.pdf)*

rational expressions	5
radicals and rational exponents	5
complex numbers	5
exponential and logarithmic functions	6
growth and decay	6
sequences and series	6
sigma notation and the binomial theorem	6
direct and inverse variation	7
polynomial division	7
finding polynomial roots	7

Pre-Calculus *(pre-calc.pdf)*

functions	1
the parent graphs	1
polynomial and rational behaviour	1
finding the zeros	2
the key points of a graph	2
sketching a polynomial	2
maximums and minimums	3
polynomial and rational inequalities	3
conic sections	4
right-triangle trigonometry	4
the unit circle	4
trigonometric identities and equations	4
graphs of the trigonometric functions	4
inverse trigonometric functions	5
triangles that are not right-angled	5
combining functions	5
average rate of change	6
polar coordinates	5
vectors	6
